

I'm wondering if any of you have had experience with Dan Flynn of D&R Drainage? Was it a positive experience? What kind of work did he do for your clients? Were they satisfied with the results? Any and all input would be greatly appreciated.

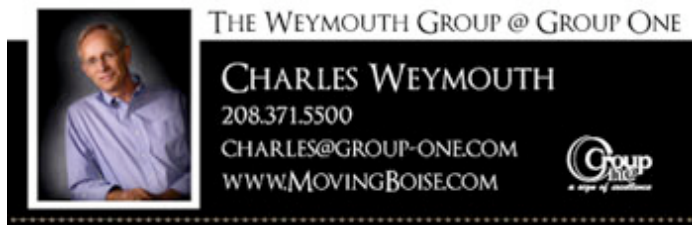

Thanks,
Heidi

Heidi Creighton

Dan is a very stand up guy. Excellent to work with and extremely reasonable. He has done one system for me and consulted on many others. He will never do unnecessary work.

Use him and he will make your transaction smooth.

Charles

I agree. He has done two jobs for me and was by far and away the most reasonable and did great work. My clients were very pleased.

Well, Heidi, it has all been said – and I concur. Dan has been a very reliable, no-nonsense performer for my clients as well. He allows the client to make the better choice!
