To Whom It May Concern:

It is my pleasure to provide a letter of reference for D & R Residential Drainage Systems.

Last fall, I had clients who were purchasing a home with significant water in the crawl space issues. Dan Flynn (then foreman with Gempler Construction) came out to bid on the project within a day of my call and was able to install a complete drainage system in the crawl space that remedied the problems that had most likely been present for years. My clients were very pleased with the work that was completed and the fact that it was done on-time (despite weather challenges) and within the original bid amount.

Another major selling point of working with D & R Residential Drainage Systems is that they stand behind their work with a 5-year warranty!

Please contact me if you would like any other information.

Sincerely,

**Constance Botelho**
